Summary

A telecom engineer with 7 years experience transitioned to front end developer. Perfectionist by nature and with a keen eye for details, I've been passionate about web development from long time ago. Obtaining a Front-End Web Developer Nanodegree gave me the required skills and inspired me to start working on variety of interesting development projects.

Skills

Programming languages: HTML5, CSS3, JavaScript
Frameworks, IDEs: jQuery, Bootstrap, Atom, Grunt
Version Control System: Git
Fluent in Spanish and Russian

Projects

Website Optimisation, www.optimization.com   June, 2016
- Optimised critical rendering path of existing website to achieve PageSpeed Insights score above 90.
- Eliminated inefficiencies in the website's scroll animation. Site now scrolls at 60 frames per second.

Classic Arcade Game Clone, www.abrakadabra.com   May, 2016
- Built a game using HTML, CSS and JavaScript which can be played in the browser window.
- Added a number of new characters to the game to recreate the classic Frogger

Interactive Resume, www.blablabla.com   March, 2016
- Designed an interactive resume site to showcase my projects and its progress while studying for a nanodegree.
- Utilised Bootstrap and JavaScript/jQuery to interactively display the sections of the resume.

Static Portfolio Site, www.loremipsum.com   February, 2016
- Developed a static single-page, responsive site using HTML, CSS and Bootstrap.
- User can view contact information and my recent projects, hosted on GitHub pages.

Experience

Consulting Network Engineer, freelance, Hunter Region, NSW (Australia) November, 2015 - December, 2015
- Successfully installed, configured and performed initial troubleshooting of Cisco network equipment in 3 locations across the state.
- The speed tests improved by one third approx. thanks to new equipment

Technical Consultant, Altran, Madrid (Spain)   September, 2011 - August,2013
- Collaborated in commercial launch of 2 Android OS mobile clients in Spain and Germany, the evolution of the client received a 4-star user rating at Google Play store
- Designed and executed a variety of test sets required for productive release
- Introduced and performed the configurations for up to 20 new participants of the trial project which increased significantly the presence of the Co on the global market

Education

Front-End Web Developer Nanodegree, Udacity; www.udacity.com   2016
Saint-Petersburg Electrotechnical University, Saint-Petersburg (Russia) – Electrical Engineer   2007
